

# ONE-AP REDUCED APPLICATION FERTILIZER

TRANSITION TURF

**One-AP™**  
ONCE A YEAR FERTILIZER

**ONE AP 36-0-6 3%S**  
**WITH CAVALCADE**  
**90%(eN) 8%N-FATE**

- Specially designed to be applied once in the Spring for season long feeding and preemergence weed control
- Balanced release formula for the northern growing zone with specialized efficiency nutrient, (eN)60, (eN)120 and (eN)180.
- Additionally contains (eN)Gevity delivering the season long assurance to last seven, eight and even nine months if needed.
- Contains Cavalcade, a long residual preemergence weed control without the staining issues
- (eN) efficiency nutrients contain a unique membrane that selectively allows soil moisture to diffuse through the coating, gradually dissolving the urea fertilizer
- In addition to many efficiency characteristics also reduces labor by more than 50% making it one of the most economical application and a great fit for efficiency nutrient management (eNM) programs.
- Environmentally Friendly, reduces yearly nitrogen use up to 50% & nearly eliminates nitrogen run-off and leaching, meeting standards for "ECO Choice Plant Nutrient" Certification.
